## NON-PROFIT INCORPORATES DAY4 SOLAR MODULES INTO ROOFTOP DESIGN

MORE THAN POWER™

EN

# DAY4 ENERGY

**PACIFIC HABILITATION CENTER NORTHWEST** IS A GROUP FOCUSED ON EDUCATION, TRAINING AND

REHABILITATION FOR PEOPLE WITH DEVELOPMENTAL, PHYSICAL AND MENTAL DISABILITIES. AS A NON-PROFIT, THEY RECOGNIZED THE OPPORTUNITY TO SAVE ON ENERGY COSTS BY INSTALLING A SOLAR ELECTRIC SYSTEM ON THE ROOF OF THEIR NEW 110,000 SQ FT FACILITY. DAY4 ENERGY'S 48MC SOLAR ELECTRIC PANELS WERE INCORPORATED INTO THE DESIGN FOR THE FACILITY BY THE PROJECT'S ARCHITECT, ERNEST R. MUNCH, DUE TO THEIR HIGH POWER PERFORMANCE AND SUPERIOR AESTHETICS.

AT THE TIME OF COMPLETION IN THE FALL OF 2008, THE PROJECT WAS THE LARGEST PHOTOVOLTAIC SYSTEM INSTALLED IN THE PACIFIC NORTHWEST.

Project	<b>PORTLAND HABILITATION CENTER NW</b>
Location	<b>PORTLAND, OR, USA</b>
Power	<b>860 kW</b>
Modules	<b>4830 DAY4 48MC MODULES</b>
Completed	<b>NOVEMBER 2008</b>
Project Partner	<b>PORTLAND HABILITATION CENTER NW</b> <a href="http://www.phcnw.com">www.phcnw.com</a>

*"From the start, our priority with this facility was to include the most advanced elements of green building; specifically, with this solar electric system we were searching for an all-in-one package of high power output, product quality, strong field performance and sleek, modern aesthetics, We selected Day4's modules because they delivered precisely that, and we approached the entire project with Day4 Energy in mind from the outset."*
