

Day4 Energy Makes BC's Top 10 Most Innovative List

Burnaby, British Columbia — April 16, 2009 — Day4 Energy Inc. (TSX: DFE), a leading technology developer and manufacturer of high performance solar electric modules, today announced it has been named one of BCBusiness Magazine's top 10 most innovative companies in BC.

The list of top BC innovators was determined by an expert panel of business leaders assembled by the magazine. The panel reviewed hundreds of companies from a wide range of industries and selected those whose ideas were not only innovative but also contributed to positive change.

"We are honored to be recognized not only for our technology innovation but also for the business vision of our team", said George Rubin, president of Day4 Energy.

Day4 Energy has also been recognized in the last year with awards from the British Columbia Technology Impact Association (BCTIA), the Burnaby Board of Trade and Canadian Manufacturers and Exporters.

About Day4 Energy

Day4 Energy Inc. is Canada's largest manufacturer of high performance photovoltaic (PV) modules for residential, commercial and utility scale installations around the world. By fundamentally improving on the design and assembly of solar modules, Day4 Energy produces unique PV panels of high power density, increased lifetime and uncompromised aesthetic appearance. Day4 Energy partners with international technology leaders to develop and deliver IEC- and UL-certified solar products to customers throughout Europe and North America. Day4 Energy is listed on the Toronto Stock Exchange under the symbol "DFE". For more information, please visit www.day4energy.com.
